1. BRAND AUDIT

Where Ashth Stands Today

Before building a European strategy, we assessed Ashth's current digital footprint, brand health, and competitive gaps.

4.6★ ON-SITE RATING	3.4K INSTAGRAM FOLLOWERS	303 LINKEDIN FOLLOWERS	6 INDIAN CITIES	97 FACET PATENTED CUT	2024 YEAR FOUNDED
------------------------	-----------------------------	---------------------------	--------------------	--------------------------	----------------------

[STRENGTH] Patented Ashth Cut® A proprietary 97-facet octagon brilliant — a genuine differentiator that no European competitor can replicate. Makes for powerful storytelling.	[STRENGTH] "Mine. Not Mined." Positioning Sustainability is a top purchasing driver for European consumers. This tagline is perfect for the EU market without any repositioning needed.
[STRENGTH] Award-Winning Brand Two Franchise India Awards (2024, 2025) and a Four Seasons launch event signal luxury-tier credibility.	[DOMAINS SECURED ✓] ashth.eu & ashth.lu — Acquired Following Eytan.com's recommendation, Ashth has secured both EU domains. ashth.eu anchors pan-European commerce; ashth.lu anchors the Luxembourg corporate entity.
[GAP] Micro Social Following 3.4K Instagram followers is well below the threshold for paid partnership leverage. EU entry requires building from near-zero across new markets.	[OPPORTUNITY] First-Mover Advantage India-origin lab-grown diamond brands are essentially unknown in Europe. Ashth can define the category and own premium positioning from Day 1.

2. COMPETITIVE INTELLIGENCE

European Competition Analysis

Ashth enters a European lab-grown diamond market dominated by established UK/US brands. Here's how they stack up.

Key Competitive Advantages

[ASHTH WINS]

Unique IP: Ashth Cut®

No European competitor has a patented 97-facet octagon cut. "The world's most complex lab-grown diamond cut" — no competitor can say the same.

[WINDOW OPEN]

Market Gap — May 2025

Courbet (liquidated) and Lightbox (closed) both exited in May 2025. Less direct competition in mid-luxury DTC sustainable positioning than at any point since 2021.

[ASHTH WINS]

Heritage Design DNA

Ashth Prive Udaya is inspired by UNESCO World Heritage architecture. Indian craft heritage is an under-leveraged narrative — no competitor owns this story.

[ASHTH WINS]

Price-Value Position

At €390–€2,000, Ashth competes below Brilliant Earth and Courbet while delivering comparable or superior quality. Perfectly positioned for the 28–40 EU demographic.

3. TARGET DEMOGRAPHICS & PRIORITY MARKETS

4. EASTERN EUROPEAN MARKET OPPORTUNITY

Eastern Europe — The Untapped Frontier

At the client's direction, this analysis extends to Eastern Europe — a region with near-zero LGD competition, fast-growing digital commerce, and price-value dynamics that strongly favour Ashth's positioning.

€123M EE LGD MARKET (2025 EST.)	22% ANNUAL E-COMMERCE GROWTH	~0 LGD COMPETITORS IN EE	40–60% LOWER DIGITAL AD COSTS VS. WEU
------------------------------------	---------------------------------	-----------------------------	--

■ STRATEGIC RATIONALE

Eastern European LGD adoption is 4–6 years behind Western Europe — but e-commerce is growing at 20–30% annually. Ashth's €390–€2,000 range is aspirational-but-accessible luxury in Poland (GDP/capita ~€17K) and Czech Republic (~€26K). With Brilliant Earth, Kimai and Courbet all absent from EE, Ashth can own the category from day one.

[PRIMARY EE MARKET]

#6 — Poland

Population 38M · GDP/capita ~€17K · LGD Market est. €55M · Internet penetration 82% Poland is the largest EE economy and Ashth's primary entry point. Allegro (21M+ users) dominates over Amazon.pl. Warsaw and Kraków have strong bridal cultures. CPC is ~55% lower than the UK. TikTok + Facebook are the primary discovery channels.

[DIASPORA STRATEGY]

#8 — Romania

Population 19M · GDP/capita ~€14K (growing ~5%/yr) · LGD Market est. €22M One of the EU's fastest-growing economies. Facebook penetration among the highest in Europe (84%). eMAG is the dominant marketplace. 2.5M+ Romanian diaspora in Italy, Spain, UK and Germany creates a powerful cross-border gifting audience — one Meta campaign can serve both markets simultaneously.

[HIGH SPEND PER CAPITA]

#7 — Czech Republic

Population 10.9M · GDP/capita ~€26K · LGD Market est. €28M · Internet penetration 88% Highest average jewellery spend per capita in EE at ~€610/yr — approaching Western EU levels. Prague is a major luxury destination with 8M+ tourists/year. Mall.cz is the key marketplace. Slovak market can be captured simultaneously at minimal additional cost.

[NICHE ENTRY]

#9 — Hungary

Population 10M · GDP/capita ~€17K · LGD Market est. €18M Budapest has an established luxury corridor (Andrássy Avenue) and a growing affluent consumer class. Benefits from spill-over from Czech and Austrian markets. Entry via combined Central European strategy — minimal additional localisation required.

Eastern Europe — Channel Mix vs. Western Europe

Channel	Western EU (UK/FR/DE)	Poland	Czech Republic	Romania
Primary Marketplace	Amazon	Allegro (dominant)	Mall.cz + Amazon	eMAG (dominant)
Discovery Platform	Instagram + TikTok	TikTok + Facebook	Instagram + Google	Facebook + TikTok
CPC vs. UK Average	Baseline €1.80–€2.40	–55% (€0.80–€1.10)	–45% (€1.00–€1.30)	–60% (€0.70–€0.95)
BNPL Adoption	High (Klarna)	Growing (PayPo)	Medium (Twisto)	Low (card-dominant)
Key Shopping Events	Valentine's, Christmas	+ Name Day (Imieniny)	+ St. Nicholas Day	+ Dragobete (Feb 24)

■ EASTERN EUROPE LAUNCH SEQUENCE

Phase 1 (Month 4–6): Poland-first via Allegro + Google Ads. Polish-language creatives, Warsaw/Kraków bridal market. Phase 2 (Month 7–9): Czech Republic via Mall.cz + Meta, leveraging Western EU content with light localisation. Phase 3 (Month 10–12): Romania via Facebook/eMAG with diaspora targeting. Hungary follows as a natural extension of the Czech campaign.

5. LUXEMBOURG — EUROPEAN HEADQUARTERS

The Strategic Home of Ashth Europe

Following Eytan.com's recommendation, Ashth has acquired ashth.eu and ashth.lu — anchoring the European entity in Luxembourg. A strategic masterstroke for a pan-European luxury brand launch.

11. MONTHLY MARKETING BUDGET

Investment Plan — €25,000 / Month

Recommended monthly spend for the first 6 months of European market entry.

4.2×	€42	€840	€105K	18%
PROJECTED ROAS (MONTH 6)	EST. CAC (PAID)	AVG ORDER VALUE	PROJECTED REVENUE MONTH 6	REPEAT PURCHASE RATE YEAR 1

Monthly Budget Breakdown

Channel	Monthly Amount	Allocation	Notes
■ SEO & Content	€3,750	15%	Native-quality multilingual content
■ Google Ads (PPC)	€4,375	17.5%	Search + Shopping + PMax
■ Meta Ads (FB + IG)	€3,750	15%	Western EU + Eastern EU Facebook
■ TikTok Ads	€2,500	10%	Gen Z UK/FR/DE/PL acquisition
■ Influencers	€4,375	17.5%	Nano/micro/macro tiered program

TOTAL	€25,000	100%	Monthly investment (excl. media pass-through)

■ BUDGET NOTES

Ad spend (Google, Meta, TikTok, Amazon) is structured as pass-through — client owns ad accounts and pays platforms directly. Agency management fee is separate (see engagement proposal). Media pass-through at €25K/month = €300K/year in media budget alone. For 5-market Western EU + 4-market Eastern EU coverage with meaningful per-market impact, €40K–€60K/month in total ad spend is the recommended medium-term target.
